LIST OF JOURNALS REGULARLY SEARCHED

So that users of PSYCHOLOGICAL ABSTRACTS may know the extent of our coverage, we publish below the ninth annual list of journals which are regularly searched. This list, revised by the deletion of journals which it is no longer possible to cover regularly and by the addition of other journals, totals 535. Journals received by the editorial office are marked with an asterisk; other journals are searched by the abstracter. The list is correct as of 1 November 1955. In those cases where no abstracter is indicated, the journal is temporarily unassigned.
